Team 5

- health tracker,
- sleep tracker,
- water tracker

Team 6

Markdown:

aa bb cc

dd ee ff

gg hh ii

Team 7

Springboot:

- Can login but can't register
- Use of SMTP to send mail
- Multiple pages
- Can configure DB
- Still need time to implement web pages.

Team 8

- Should let user to input server address
- will try add jNativeHook
